“ Becoming a Community Assistant not only provided me with a job, but the opportunity to build my career! As a CA, I started developing a business mindset and the ability to brand myself professionally. I'm glad I made the decision to become a CA because of the confidence I have gained in my customer service and marketing skills. I have had a fantastic experience that has come with a second family in American Campus.

## Our story.

American Campus Communities began in 1993 with four employees, one student housing management contract and a vision to be the best student housing company in the nation. Today, we are the nation's largest developer, owner and manager of high-quality student housing communities, with more than 128,000 students calling an American Campus community home in nearly 200 on- and off-campus communities across North America.

That success is due in no small part to the dedication and drive of our team, which today includes over 3,190 team members.
